Four ways cleaning:

1. Thin protruding brush is for cleaning on harder to reach crevices and grooves.
2. Welt surface used for stronger cleaning on heavier scuff marks and stains.
3. Arched half circle brush allows for easier cleaning on rounded corners.
4. Nylon bristles used for a lighter and gentler cleaning on light scuff marks for thin fine suede and nubuck

Suede & nubuck requires more care and attention for cleaning. Dry cleaning may be the best option without damaging it. A good brush is essential for suede and nubuck. The fine fibres standing up on suede & nubuck refers to nap. A suede brush will keep the nap looking fresh and help to remove dust & dirt trapped in the nap.

Regular brushing is an easy and effective way to take care of it. Combi brush/suede brush is made of brass wire bristles surrounded by soft protective nylon bristles. To lift the nap, gently brush over the suede with nylon bristles.

Combi/suede brush is effective in removing stains, use the serrated edge of the brush to clean between the sole and the uppers of shoes.
